PROFILE

As an Android developer, I'm all about learning and growth. I'm a quick and organized learner with a burning ambition to master the ins and outs of major technologies, software, and languages. Beyond coding, I have a keen interest in writing and mathematics, all of which drive my passion for excelling in the ever-evolving field of mobile app development

EXPERIENCE

ScoreZone | kotlin, Mvvm, Jetpack components, coroutine, firebase, Hilt

- Developed "Score Zone" app for real-time sports scores and news.
- Curated league-specific real-time sports news for user engagement.
- Improved user retention with detailed match screens and stats.
- Enhanced user experience with an intuitive interface.

Whimsy tales | Java, MVI, RxJava, RxAndroid, firebase

- Developed "Whimsy Tales" bedtime story app for kids
- Incorporates interactive animations for engagement and learning.
- Includes beautiful illustrations to bring stories to life.
- Offers **100+** pictures and chapter books, **50+** fairy tales, and enchanting music.
- Updates the app regularly with new stories to keep children engaged.
